

Electrode Slitter

MAX:100m/min

Slitting speed

Product Features

- Traditional round cutter and automatic cutter arrangement system can be installed
- Electronic cutter and hob are universal
- High slitting speed, maximum 100m/min
- The hob is driven separately, the radial runout of the lower blade shaft is $\leq 0.007\text{mm}$, and the axial runout of the blade shaft is $\leq 0.005\text{mm}$
- Easy to operate, user-friendly HMI, High slitting accuracy

Product Parameters

Slitting speed	MAX:100m/min
Qualification rate	$\geq 99\%$
Utilization rate	$\geq 98\%$
Maximum unwinding diameter	850mm
Minimum slitter width	35mm
Unwinding deviation correction accuracy	$\pm 0.2\text{mm}$
Splitting width accuracy	$\pm 0.1\text{mm}$
Slitting burr	Horizontal burr $\leq 8\mu\text{m}$, vertical burr: exceeding the foil surface by $\leq 7\mu\text{m}$
