

Fully Automatic Wrapping Machine

PPM ≥ 15

Capacity

Product Overview

- The equipment is used for U-shaped or zigzag wrapping of prismatic cell on wide and narrow sides, and insulation test to improve battery safety

Product Features

- Unique design: unique blue film deviation correction&tension control device design to ensure the wrapping accuracy
- The convex design of the film pressing roller prevents the NG film wrapping caused by the battery bulging
- Fool-proof safety: all areas that may contact the battery are insulated, and the manipulator has fool-proof function

Product Parameters

Overall dimension(L*W*H) 10300*4500*2500mm

Qualification rate $\geq 99\%$

Utilization rate $\geq 98\%$

Capacity PPM ≥ 15

CMK ≥ 1.67

Positioning accuracy (X, Y, Z axis) $\pm 0.1\text{mm}$

Test over-kill rate $\leq 0.1\%$
